

## Recommendation Letter

by Andrew Diniz da Costa

Júlia Affonso Figueiredo Rocha is my student at Pontifical Catholic University of Rio de Janeiro (PUC-Rio) since February, 2018, and she has been presenting an excellent improvement of skills related to iOS development. She is coursing computer science, and she began my classes without any previous knowledge about iOS development. These last weeks, she is dedicated to create a Playground solution to share a great experience to users. This dedication explains why she earned a scholarship of 80% at PUC-Rio. That scholarship is offered only to great students of the university.

Thus, it is a pleasure to have a student as Júlia Rocha. During these last months she has presented an amazing dedication to create solutions in Apple platforms and impact people around the world. Maybe her passion by Apple can motivate it.

Hence, I recommend Júlia Rocha to WWDC 2018 and to receive the travel assistance, because she and her family do not have conditions to pay her trip to that event. I believe she will enjoy the opportunity to exchange knowledges and experiences with other WWDC participants.

Prof. Andrew Diniz da Costa, PhD  
Teacher of iOS development  
Informatics Department  
Pontifical Catholic University of Rio de Janeiro
